

Circles

Koven.

Let the past come close to heed
'Cause we're far from getting on
In the face of someone needed
'Cause we stand tall, heart strong

I'm all out of purpose
It's not what I search for
We're walking in circles
Bite down on your panic
I'm farther with passion

We're walking in circles (In circles)
We're walking in circles (In circles)
We're walking in circles
Bite down on your panic
I'm farther with passion
We're walking in circles (In circles)
We're walking in circles (In circles)
We're walking in circles (In circles)

Back to base and hit rewind
Has the cat got your tongue?
Instead of falling into lime
We're messed up, unsound

I'm all out of purpose
It's not what I search for
We're walking in circles
Bite down on your panic
I'm farther with passion
We're walking in circles

(We're walking in circles, walking in circles)
(We're walking in circles, walking in circles)
(We're walking in circles, walking in circles)
(We're walking in circles) We're walking in circles
(We're walking in circles, walking in circles)
(We're walking in circles, walking in circles)
(We're walking in circles, walking in circles)
(We're walking in circles) We're walking in circles

(Circles)
We're walking in circles (In circles)
We're walking in circles
Bite down on your panic
I'm farther with passion
We're walking in circles (In circles)
We're walking in circles (In circles)
We're walking in circles (In circles)
