For Me

Koven.

I don't wanna be the reason
You don't smile every day
I wish I could change the season
'Cause I've kept our sky grey
You put your life on hold, and I
Said you had a heart of gold and that
It's always how it's gonna be

'Cause you did it all for me
You did it all for me
You did it all for me
You did it all for me

I don't wanna be the reason
You don't smile every day
I wish I could change the season
'Cause I've kept our sky grey
You put your life on hold, and I
Said you had a heart of gold and that
It's always how it's gonna be

'Cause you did it all for me
You did it all for me
You did it all for me
You did it all for me

You did it all for me
You did it all for me
You did it all for me
You did it all for me
