

## From the Start

Koven.

And I'll see this all again  
From the start until the end  
And I've waited for so long

And I'll see this all again  
From the start until the end  
And I've waited for so long

And I'll see this all again  
From the start until the end  
And I've waited for so long

And I'll see this all again  
From the start until the end  
And I've waited for so long

So long...

Keep stopping myself  
From trying to find what we are  
What we are

Keep stopping myself  
From trying to find what we are  
What we are

Keep stopping myself  
From trying to find what we are  
What we are

Keep stopping myself  
From trying to find what we are  
What we are

And I'll see this all again  
From the start until the end  
And I've waited for so long
