Get Through

Koven.

It all got a little too much
It all got a little too hard to take
This record's broken while I'm falling to the ground again
Can't keep reliving my mistakes

'Cause I'm not perfect
Nor did I claim to be
And I felt worthless
But I'm shaking off that feeling
I'm not perfect
Nobody is you see
We're all just tryna get through

I'm just tryna get through
I'm just tryna get through
I'm just tryna get through
We're all just making our way through

Oh god, I'm falling apart
Feels like I'm giving too much in vain
This record's broken, I'm just trying to move my feet again
Can't keep reliving my past pain

'Cause I'm not perfect
Nor did I claim to be
And I felt worthless
But I'm shaking off that feeling
I'm not perfect
Nobody is you see
We're all just tryna get through

I'm just tryna get through
I'm just tryna get through
I'm just tryna get through
We're all just making our way through
