

Hooked

Koven.

I just wanna play the night
I just wanna let you in
Have it from a second look
How to get me given in, oh

Your hand, my ways
We're just living for the moment
Full steps, my way

I just wanna play the night
I just wanna let you in
Have it from a second look
How to get me given in, oh

Little by little, you've got me catching your eye
Little by little, you've got me hooked on that smile
Little by little, I think I'm seeing the signs
I just want you

I just want you (you, you, you, you...)

I just wanna play the night
I just wanna let you in
Have it from a second look
How to get me given in, oh

Little by little, you've got me catching your eye
Little by little, you've got me hooked on that smile
Little by little, I think I'm seeing the signs
And I just want you

(Yeah)

I just want you (you, you, you, you...)

I just wanna play the night
I just wanna let you in
Have it from a second look
How to get me given in, oh

Little by little, you've got me catching your eye
Little by little, you've got me hooked on that smile
Little by little, I think I'm seeing the signs
And I just want you

You, you, you, you
You, you, you, you
You, you, you, you
You, you, you, you
You, you, you, you
You, you, you, you...
