

## In The Echo

Koven.

In the echo of the night  
We find solace, we find light  
In the moment in our heart  
When you hear the music start  
I can see you, I can hear you  
And I know that you are strong  
You've been dealing with your demons  
Now you know where you belong

In the echo of the night  
We find solace, we find light  
In the moment in our heart  
When you hear the music start  
I can see you, I can hear you  
And I know that you are strong  
You've been dealing with your demons  
Now you know where you belong

In the echo (In the echo, in the echo)  
In the echo (In the echo)  
(In the echo, in the echo)  
In the echo (In the echo)  
In the echo (In the echo)

In the echo (In the echo, in the echo)  
In the echo (In the echo, in the echo)  
(In the echo, in the echo)  
Dealing with your demons  
Now you know where you belong  
In the echo (In the echo)  
In the echo (In the echo, in the echo)  
(In the echo, in the echo)

In the echo (In the echo, in the echo,...)  
In the echo (In the echo, in the echo,...)

In the echo of the night  
We find solace, we find light  
In the moment in our heart

And I know that you are strong  
You've been dealing with your demons  
Now you know where you belong

In the echo of the night  
We find solace, we find light  
In the moment in our heart  
When you hear the music start  
I can see you, I can hear you  
And I know that you are strong  
You've been dealing with your demons  
Now you know where you belong

In the echo (In the echo)  
In the echo (In the echo)  
You've been dealing with your demons

Now you know where you belong  
In the echo (In the echo)  
In the echo (In the echo)

In the echo (In the echo, in the echo, in the echo)
