

Light Up

Koven.

How do we close this door
How do you switch up your mindset
When rain doesn't care if today you planned a picnic

But I stopped thinking about what they think of me
Yeah, I stopped thinking about what they think of me
Who knew that we had the power to be whatever we wanted

Light up, just light up
Illuminate you
So light up, just light up
Throw your fears away

Cause I stopped thinking about what they think of me
Yeah I stopped thinking about what they think of me
Who knew that we had the power to be whatever we wanted

So how do we close this door
And how do you switch up your mindset
When rain doesn't care if today you planned a picnic

But I stopped thinking about what they think of me
Yeah I stopped thinking about what they think of me
Who knew that we had the power to be whatever we wanted

Light up, just light up
Illuminate you
So light up, just light up
Throw your fears away

Cause I stopped thinking about what they think of me
Yeah I stopped thinking about what they think of me
Who knew that we had the power to be whatever we wanted
