

## Lions

Koven.

Picture this, it's a long way to the ground  
All along, guess we played for what's been found  
Different sides, but you know which one you're on  
It's a ploy, it means nothing when you're gone

So don't blame me, my onset grief  
Just not today, it's a waste of space  
But colours turn, and lessons learn  
The other way, it can't be changed

Cause we are lions, and we are fighters  
We'll run this world tonight, with the fire in our eyes  
We are stronger, we push harder  
We'll run this world tonight, with the fire in our eyes

We are lions, and we are fighters  
We'll run this world tonight, with the fire in our eyes  
We are stronger, we push harder  
We'll run this world tonight, with the fire in our eyes

Cause we are lions, and we are fighters  
We'll run this world tonight, with the fire in our eyes  
We are stronger, we push harder  
We'll run this world tonight, with the fire in our eyes

Cause we are lions, and we are fighters  
We'll run this world tonight, with the fire in our eyes  
We are stronger, we push harder  
We'll run this world tonight, with the fire in our eyes
