

Looking For More

Koven.

Been tryna change what I've been tryna say
Words don't come straight from my hands or my mouth
It's such a shame that it fell out of place
Was never mean, I was bringing you down

More, more
Why are we always looking for more?
Why are we always looking for more?
Why are we always looking for more?

Why are we always looking for more?
(Looking for more, looking for more)
(Looking for more, looking for more)
More, more
Why are we always looking for more?
More, more
Why are we always looking for more?

I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted

More, more
Why are we always looking for more?
Why are we always looking for more?
Why are we always looking for more?

Why are we always looking for more?
(Looking for more, looking for more)
(Looking for more, looking for more)
More, more
Why are we always looking for more?
More, more
Why are we always looking for more?

I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
I wish that could change what you wanted
