

## Miracle

Koven.

How did we make it  
With things that we've never known  
Questioning the proof that we had  
Was it all pointless  
The time that we used to show  
Except from finding comfort within false hope

Have you found what you've been searching for  
Ask yourself has it been worth it all  
In another life, in another light  
Have you found what you've been searching for

Should it be easy, with time to deliberate  
Could there only be one answer  
Finding focus, but viewed in a different way  
Tried to show them reasons so they'd understand

Have you found what you've been searching for  
Ask yourself has it been worth it all  
In another life, in another light  
Have you found what you've been searching for

We could pray for a miracle  
We could pray that a change will come  
We could waste time for the hell of it  
We could just move on

Have you found what you've been searching for  
Ask yourself has it been worth it all  
In another life, in another light  
Have you found what you've been searching for
