

## More Than You

Koven.

Now I'm breathing more than air in this fire I've found  
The hidden cloud  
On the head of someone true  
And now I see, he's more than you

More than you  
More than you  
More than you  
Now I'm breathing more than air in this fire I've found  
The hidden cloud  
On the head of someone true  
And now I see, he's more than you

He's more than you  
More than you
