

Numb

Koven.

Numb
Numb

I'm still staring at the same wall
Waiting for that phone call
Telling me it's wrong
Cause if the words said
Really came from your head
Really meant to make sense
Why do I feel numb

Is it the cold wind
Getting under my skin
Leaving me deciding
Where mistakes were made
Is it the high tide
Pushing back on my pride
Wish we read the sign right
Instead of being wrong

Instead of feeling numb
Instead of feeling numb
Instead of feeling numb

Instead of feeling

Instead of feeling numb
Instead of feeling numb
Instead of feeling numb
Numb
Numb
Instead of feeling

Tell me where we go from here and
How should we feel now
And tell me if we live in fear then
When can we crawl out

Instead of feeling numb
Instead of feeling numb
Instead of feeling numb
Numb
Numb
Instead of feeling

Instead of feeling

Instead of feeling numb
Instead of feeling numb
Instead of feeling numb
Numb
Numb
Instead of feeling
