

## Pessimist

Koven.

So close to falling into habit  
And giving just to have it  
You're so easy to deny it  
No matter how we try it

And now I'm slipping away  
And now I'm slipping away  
And now I'm slipping away  
And now I'm slipping away

So close to falling into habit  
And giving just to have it  
You're so easy to deny it  
No matter how we try it

So close to falling into habit  
And giving just to have it  
You're so easy to deny it  
No matter how we try it

And now I'm slipping away  
And now I'm slipping away

So close to falling into habit  
And giving just to have it  
You're so easy to deny it  
No matter how we try it
