With You

Koven.

Take the right side
Left you with the last time I tried
I [?] across the lines
I made up the words we had

And I was falling too far
We rely on nothing, and nothing is fine
And it was always so hard
Now we know we're nothing, nothing, nothing
I know when I'm with you

I know when I'm with you

Take the right side
Left you with the last time I tried
I [?] across the lines
I made up the words we had

And I was falling too far
We rely on nothing, and nothing is fine
And it was always so hard
Now we know we're nothing, nothing, nothing
I know when I'm with you

I know when I'm with you
