

# You Wanted

Koven.

Keeping the wolves from the dark  
Putting me in from under my skin  
It's so much worse than before  
A past fractured crown  
The lights will ring down

So give me everything you wanted  
Everything you wanted  
Everything you live for  
Give me everything you wanted  
Everything I needed when I've giving in to you

So give me everything you wanted  
Everything I needed when I've-  
(Giving in to you)

(Giving in to you)  
(Giving in to you)  
We come alive, but go insane  
We get up, we get up again  
Made to be [?]

So give me everything you wanted  
Everything you wanted  
Everything you live for  
Give me everything you wanted  
Everything I needed when I've giving in to you

Giving in to you  
Giving in to you  
Giving in to you  
Giving in to you  
Giving in to you  
Giving in to you  
(Giving in to you)

(Giving in to you)  
(Giving in to you)  
We come alive, but go insane  
We get up, we get up again  
Made to be [?]

So give me everything you wanted  
Everything you wanted  
Everything you live for  
Give me everything you wanted  
Everything I needed when I've giving in to you
