

Anthem

Koyo

For anybody out there
That knows just where I'm coming from
To the ones that identify
With the same fire in their eyes

We grow old and die off
But the best has yet to come
And when our time has passed
You'll just know you're the next one up

It's hard to find the right words
To frame what makes this good enough
To wreck every semblance of
Convention fighting to find some space in my life
It's that I still feel the rush

Am I loud and clear?
The time is now is here
You know It's L-I-H-C forever
If you don't get it you can fall right off

We grow old and die off
But the best has yet to come
And when our time has passed
You'll just know you're the next one up
