

## The Telephone Call

Kraftwerk

I give you my affection and I give you my time  
Trying to get a connection on the telephone line

You're so close but far away  
I call you up all night and day

I give you my affection and I give you my time  
Trying to get a connection on the telephone line

You're so close but far away  
I call you up all night and day  
You're so close but far away  
I call you up all night and day

I give you my affection and I give you my time  
Trying to get a connection on the telephone line

I call you up from time to time  
To hear your voice on the telephone line  
I call you up from time to time  
To hear your voice on the telephone line
