

Gyalis (Refix)

Kranium

Mhm mhm, mhm mhm oh
Oh
Yeah eeh yeah, yeah
Oh yeah
Kranium
Yeah
Watch yah now

She a move pon the steel
How have you been never feel a size so big
Gyal a bounce and a smile, she waan swallow me
Never seen a cocky longer than a limousine
She no know how she feel so tight body shape right
Haffi fuck her hard tonight
Oh yeah yeah
Sit down pon buddy and brace while you a look inna mi face
Grab her hard, grab her hard, buss her necklace
Suck her breasts dem, breathless
She a bounce up pon the top of the tip
She a jump up and a slide pon the dick
Open up nuh, let me in you
Nice to meet you, have to leave you
Me no play no court side
Outside inna the gyal dem mouth side

I see her
She came with her nigga
Mm, but she gon' slide right to my side, I know
She pulled up with her friends
Then we skrrt off in the Benz, oh-oh, oh
Took her back to my crib and I regret it
'Cause she tryna (Ayy)
Fake like she asleep (Uh)
Swear she tried to stay the whole week
I'm like "Oh, nah, she gotta go", uh
Ask me her name, I swear I don't even fuckin' know
They wanna know why di gyal dem deh pon me
Dem eye green, dem mind just set pon mi
They wanna know why dem love him off so much
Like what is the reason, oh-oh, oh
Mm, it's just the vibe, I'm that guy
She put her legs in the sky whenever I
Pull up, she got her clothes off from the walk-in
She won't waste no time, oh
She don't want nobody else, I know
But I can't be what she wants
They all have the same story
They all want me to themselves

But I'm a gyalis
The city is my palace
What I'ma do?
'Cause I want she and she and she
And they love them some me
I ain't the nigga they gon' say bye to
I ain't the nigga you gotta lie to
I ain't the nigga that you could trust on speaker

When you wit' your people
'Cause you know the timing I'm on
I want she and she and she
And they love them some me
I can't even speak
To all of 'em, so I call her on the FaceTime
She gon' pick up on the first ring
Ooh, I got her wrapped around my damn finger
I will never tell a soul, oh no, no
Mm, girl, we grown
The life of a gyalis
