

# Higher Life

Kranium

Me say a prayer this morning (Morning)  
One bag a chanting (Chanting)  
Firm and planted (Firm)  
Blessing just a flow like mountain  
This morning (Morning)  
One bag a chanting  
Morning (Yeah)

Me have breath  
Weh me fi worry 'bout?  
Many things me can do without  
Anything me want, Jah Jah make it sort out  
Haffi work, sun a shine 'til the place dark out  
Couldn't call out  
Weh the fuck them a talk 'bout?  
Hungry miss, me nah look  
Me nah look (Nah look)  
Me tell me friends them all 'bout

Camera lights, bag a vibes  
Famous, a no like  
Legends cannot die  
Tell me Rolly, "A no time"  
Wings probably need service to how man a fly  
See things clear like smaddy weh love carrot eyes  
Before car, nothing couldn't stop e drive  
Fully brave, we go through e flames like firefighter  
Survive that  
We been tell unuh we solid than rock  
'Til we shame cement and steel and block  
Table turn, just watch no surprise if you see your catty 'pon me bike back  
My gosh  
Chain them a freeze, no care the time hot  
Menace, man a menace, same way full a strap  
Big Ben, man higher than London Clock (Kranium)

When you see me in a me name brand clothes, me been grinding  
You couldn't dare fi come stall me  
Hottest gyal 'pon the ends we dividing

Can't play me like no violin
