

No Odda

Kranium

I got nothing but love for ya
I got nothing but love for ya
Just the way you treat me, baby
I got nothing but love
So me go so then

Every night we would lay out in the bed
You tell me what you're going through
All I want is to protect you, feel like you're bullet proof
I can be your soldier, come closer
Your smell, the best thing in the air
Can't you see you are more than... than a friend?

Oh
You love me like no other
You treat me like no other
And I appreciate you
And I appreciate you
Hey

Every night before I sleep, I gotta pray for us
Make sure that we are alright
'Cause you stand right by me through all my days
And I will always love you same way

Oh
You love me like no other
You treat me like no other
And I appreciate you
And I appreciate you

Me a tell you say
Far we a come from, you me love a done 'pon
You have me heart a beat, ba-doom-boom, like a drum pan
You got me heart
You got me start
Look how far we a come form
You me love a done 'pon
You have me heart a beat, ba-doom-boom, like a drum pan
You got me heart
You got me start

Oh
You love me like no other
You treat me like no other
And I appreciate you
And I appreciate you
Hey

Every night we would lay out in the bed
You tell me what you're going through
All I want is to protect you, feel like you're bullet proof
I can be your soldier, come closer
Your smell, the best thing in the air
Can't you see you are more than... than a friend?
