

Brand New Everything

Krayzie Bone

I've been all over the world still can't find my place
I've been all over the world still can't find my place
So I've been getting bored
I've been getting bored
I've been getting bored getting really really bored

I want to build a brand new place a brand new town a brand new face
I want to build a brand new place a brand new town a brand new face
I want to build a brand new place a brand new town a brand new face
I want to build a brand new place a brand new town a brand new face
I want to build a brand new place a brand new town a brand new face
(A brand new everything)
I want to build a brand new place a brand new town a brand new face
(A brand new everything)

I wanna go to another level where humans have ever been before
Nobody can break me concentration I'm in my zone
Nobody can fade me or hate me cause I got my own
Living life in paradise so I can chill now
Need no more fakers around so we can all get real now
Nobody thinking none of us claim my niggaz still down
Everytime we pull up beside us yea niggaz real loud
So let me take my mind to a brand new place
And gather the souls to take to a brand new town
Let me rearrange and change my game face
Switch up a style create a brand new sound
Am I perfect? on my mind I know I'm not perfect (perfect)
Am I perfect? on my mind I know I'm not perfect (perfect)

I want to build a brand new place a brand new town a brand new face
(A brand new everything)
I want to build a brand new place a brand new town a brand new face
(A brand new everything)

Couldn't imagine that lady like him and that
And even the matrix from the bacon streets a simple match
Now let me shoot the dice I hope nobody try to catch
I've gotta fresh flash of dreams and even that
Shine gleaming at minano where is thy water at
Why is the water black? (yeah)
Your angels good on my leader he be feeling that ya ready set lightspeed get
the staff
When there is no one left this is what I seen at death
Like in the streets of paeson and eden's cleff
Man that's all and I need some more rhythm yup must be the thoughts building
kingdoms in my inner depths
Volcanic cover since we levitate get the rest
Until the baby's grow as slaves
Watching centre flicks
I'm to the moon Alice fuck it I bought my crew a palace
Hop in ready to see the sun we be loving it buddy.

I want to build a brand new place a brand new town a brand new face
(A brand new everything)
I want to build a brand new place a brand new town a brand new face
(A brand new everything)
