

# Fly Away

Krayzie Bone

I just wanna fly away  
Cause I'm tired of the games they're playin'  
Always flying with heat  
I just wanna fly away  
Cause you can't break my world  
Cause this is my legacy

Sometimes I wish I could just take flight,  
Blast off into the sky  
I wanna be free from all of my dramas mayn  
There gotta be more to life  
Too many demons around me, too many evil people screaming around me, listen  
me, drowns me  
And I whether be in the cloud, I'm having my vision cloudy  
World so cold, the cold is freezing out here  
If you're gonna come out, it's your own risk  
Cause you won't believe what's out here, we don't even need what's out here  
So I just wanna fly away  
It's better to be drifting with the winding to my dying day  
Fly like an eagle  
Let me go, let me glow, let me shine, you're here to twist things up, let me  
ride  
I don't wanna reside there  
You can let me out the sky playa, really I'm already feeling this natural hi  
gh playa, I swear  
And there's nothing like a floating by, if life was priceless, open that [?]  
, found my life and soul and die, I gotta keep fighting fam  
But I'm getting tired man  
Cause the game is getting stressful everyday  
I gotta whistle with the devil

I just wanna fly away  
Cause I'm tired of the games they're playin'  
Always flying with heat  
I just wanna fly away  
Cause you can't break my world  
Cause this is my legacy

I'm done with all this [?] griming business, partner sharp cause man I'm hea  
rtless  
So I got a higher expense of lawyers, all this making me nauseous  
But I think I'ma chock it, I'ma leave it all, book my flight  
Look, tonight, they gonna go runnin' a nigga like me, the ship, the (site[?]  
)  
Look up in the sky  
Is it a bird, a plane, no way, it's Krayzie Jackson, they say what do you do  
way up there in the air, they can imagine!  
So we (reason[?]) pass 'em, like a flocka bird, mark my words  
How am I even an artist, madness, badness I absorb, so I emerge  
Rise up!  
I done I've told 'em they can meet me up in the sky  
But they came late, and now I'm in my spaceship  
(When and ever[?]) through the stars, keeping it moving on, need to pause  
I'm defined to lord's gravity ya'll, (Atheny[?]) has evolved, gotta see [?],  
and I'ma march, post it  
And I feel like comin' foe, cause, right here so I'm focused  
I hope I die coastin'

So if you wanna get away, come and ride with me  
Jump in the flight and [?] the skys with me

I just wanna fly away  
Cause I'm tired of the games they're playin'  
Always flying with heat  
I just wanna fly away  
Cause you can't break my world  
Cause this is my legacy

The life, the life [echoes]
