

Harmonically Bliss

Krayzie Bone

Harmony harmony harmony...
Bliss
Harmony harmony harmony...

Right now we is in the zone, forget your sorrows till tomorrow
Don't let gravity posses you or control
Don't let them keep you down
Pick up your feet let's leave the ground
Keep that evil underneath
All that hate can stay below
I gotta stick to the vibe
Never let these demons enter, keep them from inside
Be cautious guard your heart
Cuz its too often that you'll find
The ones right by your side
Don't be blind, oh my
Your friends turn out to be foes
Snitches bye, no lie
I'm tryna get lost on my own
In my own mind
Continously in a zone
As time goes bye bye bye...
Just let the time go bye bye bye...
Let the time go bye...

Harmony harmony harmony...

Release all your tensions
Clear your visions from these issues
Just be free
Don't be anxious
Let them go
And fall into the sound
Of these hypnotizing styles
Let the flow clog up your mind
Let the rhythm take your soul
I gotta keep to the vibe
Get into to the mind
Bet I can get em with a little bit of time
Hit em with a rhyme, kill em with a line
I'm talented fully cuz I'm fitted to survive
Little bit of light, little bit of shine
Elevated, levitated, hella fly
Hit em in they mental, let the instrumental ride
Let me get in your mind
We flow so high we roll so naturally in bliss
We float so high we roam
Just like nomads as we drift
The harmonies got you gone
The melodies got you lifted, lifted
Lifted lifted

Harmony harmony harmony...

Sit back into positions at attention
Clear your mental, no hesitation, laid back, reset your mode
These blessings were profound

Even if this is what we found, drown
So deep down into the melody, make you feel like you can float
I gotta stick to the vibe
I'm so in harmony bliss
I gotta stick to the vibe
I'm so in harmony bliss
I gotta stick to the vibe
I'm so in harmony bliss
I gotta stick to the vibe
I'm so in harmony bliss
I gotta stick to the vibe
I'm so in harmony bliss
Little bit of light, little bit of shine
I'm so in harmony bliss
Little bit of light, little bit of shine
I'm so in harmony bliss
Little bit of light, little bit of shine
I'm so in harmony bliss
Let me get in your mind...

Harmony harmony harmony...
