

## Level Up

Krayzie Bone

You niggas ain't on my level  
You're gonna have to level up my nigga  
These niggas ain't on my level  
They're gonna have to level up my nigga  
You niggas ain't on my level  
You're gonna have to level up my nigga  
These niggas ain't on my level  
They're gonna have to level up my nigga

Kray Jackson blazing at these fakers I'm raising the bar  
Make sure these lames stay in their place or they lay in the dark  
They run up and try to shoot their shot but don't phase me at all  
They play too small but I'm way too tall  
Kray has evolved, like metamorphosis  
It's like my flow is outcasted  
So my style is a bastard, call it "orphanage"  
I reign in a lane of my own  
And forever I'll remain cause I'm chained to throne  
When I'm dead and gone my skeleton will still be relevant  
They say the flow is sick but then again this shit is medicine  
Deadlier than I ever been, healthier on my second wind  
Boxing with these demons we not tryna let these devils in  
Elevate em high on my pedestal  
Cause opposition riding by Imma let em know  
Shut it down, let it go  
Hey, they better get on my level  
Ya better get yourself together level up, level up, level up

You niggas ain't on my level  
You're gonna have to level up my nigga  
These niggas ain't on my level  
They're gonna have to level up my nigga  
You niggas ain't on my level  
You're gonna have to level up my nigga  
These niggas ain't on my level  
They're gonna have to level up my nigga

Keep em below me they don't even know me  
Stayin' away from the phony homies room for members only  
Never mess with corny niggas, warn this niggas fuck off  
Don't make me grab that AK-four-  
seven and blow the dust off and dust y'all, dawg!  
We put em to rest like it was a bullet to chest  
And bet it  
We will not rest until we are the best that's embedded  
Into your head until you get a headache  
Let me tell you fuck what was said and whoever said it  
Can't even hear ya from where we standing cause we all the way up!  
Suckers can't handle us because we all the way thug!  
In position on a scale of intensity  
Descriptions of my level what they yell is elementary  
This legacy was meant for me  
They mess with me them niggas going down in infamy  
Ain't no coming back, ain't no more love, ain't no more sympathy  
And so before I have to treat you like the enemy  
Y'all better get on my level, my level

You niggas ain't on my level  
You're gonna have to level up my nigga  
These niggas ain't on my level  
They're gonna have to level up my nigga  
You niggas ain't on my level  
You're gonna have to level up my nigga  
These niggas ain't on my level  
They're gonna have to level up my nigga
