Wes nile productions  
Krayzie bone  
This for all of y'all

It's Mister Leatherface and this weapons aiming at ya head  
But if you don't die ya better lay there steady playing dead  
I'm the lyrical nigga they dread  
I'm the competition killer, they dead  
Suckers when they try to run up beware  
Gon show em why they should never have come up in here  
Cause we don't sweat that sucker shit my nigga y'all gots ta know  
Them original niggas you remember them niggas cause that's where you got cha  
flow  
Truth talk, but all that bullshit moonwalk  
Get the fuck out, beat it!  
Suckas can never see us they try to keep up I leave em my dust, eat it!  
Get a little bit of that murda that murda murda mo murda mang  
Competitors they get strangled we watch em dangle like curtains hang  
The rest of them's like "he got mangled" they change they angle and turn awa  
y  
Get in shape and try another day  
Tell em it'll never be another Kray  
Incomparable niggas be high compared  
There's nothing as real as this I declare  
Its simple the realest shit guide us here  
But most of it prolly fly by ya head  
When I stick to the rhythm the style that I give em they say there's no limi  
ts and highly addictive  
Did I mention the description, is "I'm the potent"

Omnipotent  
I'm the potent  
Omnipotent  
I'm the potent

I don't think they ever wanna see us cause we apply pressure  
Can't compare greater to lesser  
A lot of these niggas just waiting for never  
Thinkin' if they copy they'd prolly be better  
They not that clever, got a little cheddar  
Now they thinking they the coldest  
I created them niggas, I molded em  
Shaped em, put a little bit of bone in them  
What's wrong with them  
I think I created a monster more like zombies though  
They so far behind me, slow  
Cause I'm the potent nigga just like a bomb I blow  
Put money up I bet any you niggas I murda ya lyrical murderer I give him wha  
t he want  
The heat so hot that it burn him up till he done  
One of the coldest poets don't they know it  
But if they don't then I can show them  
Ain't nobody on my level  
Let it go cause ya not on my level  
The flow just coasts  
It's kinda like hypnosis  
Leaving all y'all open

We are the chosen  
Tell em he can never lose focus  
So potent, omnipotent

Omnipotent  
I'm the potent  
Omnipotent  
I'm the potent
