

# Save Us

Krayzie Bone

I'll hold on  
I'll pray to you  
Burn more  
Oh burn  
Save us

Oh Father  
Oh come and save us  
Forgive us  
Oh come and save us  
Oh Father  
Oh come and save us  
From this cold and dark

The time is running out  
We need to be saved  
We have to be saved  
But we've been running around  
Stuck in our ways  
Trapped in this maze

You really better keep your eyes wide open  
Focus on your prize  
The devil and his evil lurking 24/7, not a fly  
It's really hard to see through the bright light  
Riding slightly blind

You better not let the devil deceive you  
And you never let him mislead you  
Well I-  
So I gotta bend the knee and praise God

Save us  
Oh Father  
Oh come and save us  
Forgive us  
Oh come and save us  
Oh Father  
Oh come and save us  
From this cold and dark

When you stand on the outside  
And look back inside on your lies  
You start to envision  
And you start to witness

Now pay close attention  
How vivid the signs  
We close to the end of time  
And I really don't think they recognize  
What I realize

And I know  
When a lot of them not gonna survive  
They follow the father of lies  
But we won't be taken out, uh  
Make no mistakes about us

We know our Savior got us

Please don't forsake us, Father  
Lord, can you please take us  
Away from here  
Help us escape from fear  
So I-  
So gotta bend the knee and praise God

Save us  
Oh Father  
Oh come and save us  
Forgive us  
Oh come and save us  
Oh Father  
Oh come and save  
From this cold and dark
