Hey, I need ya

Everytime I try to jet
Your temptation draw me back
Lately I got me a market that I can't shake off my back
Like a druggie needs a fix
I guess you could be my high
She keep me right feel so fly whats the matter with that?
But I need to leave you
They say she bad for my health, I spend up half of my wealth
And it never last, oh your smell
Just wanna roll ya, hit you, hold you, ya so swisher sweet
The vibe we got between us so deep deep deep deep deep

Cloudy in my mind
Look how high ya boy can fly
Im drowning in the sky
Im so high right now I got wings
Sheba, Sheba, baby
She make me mentally amazing
Smoke it all, smoke it all
We go hard all night long
Smoke it all, smoke it all

All night all night
