

Another Life

KREAM

Maybe if the sky was open
And streets were golden, babe
Maybe our love would float like oceans
In storms and through the rain
I hate it, that we come so far, baby, just to throw it away
And I hate it, that there's no longer a thing called "us"
We needed to change

Maybe in another life we could be together, no goodbye's
Maybe in another life, you and me, we can walk down that aisle
Maybe in another life we could have that picture perfect love
Maybe in another life we can have it that way

I hate it, that we come so far, baby, just to throw it away
And I hate it, that there's no longer a thing called "us"
We needed to change

Maybe in another life we could be together, no goodbye's
Maybe in another life, you and me, we can walk down that aisle
Maybe in another life we could have that picture perfect love
Maybe in another life we can have it that way

If we was in a perfect world
Maybe I would love you the way I used to, baby
It's better that we let it go
A shame that we had to go our separate ways
If only we could speed time to another lifetime
Baby, I would be yours, maybe you could be my baby
If only we could speed time to another lifetime
Maybe I can love you tonight

Maybe in another life we could be together, no goodbye's
Maybe in another life, you and me, we can walk down that aisle
Maybe in another life we could have that picture perfect love
Maybe in another life we can have it that way
