

Drowning

KREAM

We found our hearts on lockdown
You faded in the background
Any other day I'd dry my tears away
I'd keep it all inside my heavy mind
We found our hearts on lockdown

We're living in a desert of us
While this city go, city goes wild
And I know you'd kill for a drop
Always waiting for rain

We're drowning out
And you know I've been thirsty for a while now
Drowning out
But you won't taste a drop with your mouth
Why won't you just drink the water, need you to try it first
We're drowning out now
We're drowning out now

So now you're acting stone cold
And you think it would work
If you're the one in control
Any other day I'd dry my tears away
But now we're out of water, you and me
So what's the point of acting stone cold

We're living in a desert of us
While this city go, city goes wild
And I know you'd kill for a drop
Always waiting for rain

We're drowning out
And you know I've been thirsty for a while now
Drowning out
But you won't taste a drop with your mouth
Why won't you just drink the water, need you to try it first
We're drowning out now
We're drowning out now

We're drowning out
And you know I've been thirsty for a while now
Drowning out
But you won't taste a drop with your mouth
Why won't you just drink the water, need you to try it first
We're drowning out now, oh
We're drowning out now, now
We're drowning out now
