

## Rendezvous

KREAM

We don't tell 'em where we're gonna go  
We can keep our business on the low  
Caught up in the heat, yeah  
I know that you feel it  
Rendezvous with me tonight and let your body take control

I go where you go...

You know I be waiting for the time and place  
Oh, rendezvous until the break of day  
Tell me I'm all that you want  
Tell me you're ready to keep me up  
Baby, enough is enough

We don't tell 'em where we're gonna go  
We can keep our business on the low  
Caught up in the heat, yeah  
I know that you feel it  
Rendezvous with me tonight and let your body take control

I go where you go...
