

Water

KREAM

Oh, I'm swimming in your ocean
Give you all of my devotion like nobody
Like nobody
You got me dripping in emotion
Imagination overflowing with your body
With your body

You know that I'll ride and I'll die for you
You know I got nothing to hide from you
You know I got space in my life for two
Yeah, yeah
Got a lot of love but in constant fear
'Cause if I get hurt, I don't think I'll live
I need you to read me loud and clear
Yeah, yeah

So can you kiss me like you're dying of thirst and I'm water?
So can you kiss me like my lips help you breathe underwater?
'Cause that's how bad I want you, bad I want you

(Ooh no)
'Cause that's how bad I want you
(Ooh no)
'Cause that's how bad I want you
(Ooh no)
'Cause that's how bad I want you
(Ooh no)

I don't need to be the lightning or the thunder
But I need to know you're really going under
So can you kiss me like you're diving in deep and I'm water?
'Cause that's how bad I want you, bad I want you

All these moments come in waves
And I get lost in you for days
All around me, your arms around me
And I can't have a little taste
I'm obsessed with you, I'm crazed
How you got me, that's how you got me

You know that I'll ride and I'll die for you
You know I got nothing to hide from you
You know I got space in my life for two
Yeah, yeah
Got a lot of love but in constant fear
'Cause if I get hurt, I don't think I'll live
I need you to read me loud and clear
Yeah, yeah

So can you kiss me like you're dying of thirst and I'm water?
So can you kiss me like my lips help you breathe underwater?
'Cause that's how bad I want you, bad I want you

(Ooh no)
'Cause that's how bad I want you
(Ooh no)
'Cause that's how bad I want you

(Ooh no)
'Cause that's how bad I want you
(Ooh no)

I don't need to be the lightning or the thunder
But I need to know you're really going under
So can you kiss me like you're diving in deep and I'm water?
'Cause that's how bad I want you, bad I want you

Oh, how bad I want you
(Ooh no) 'Cause that's how bad I want you, bad I want you
