

Demonic Future

Kreator

In terror, in riots in war
Just when you thought that you've seen it all
Awareness turns to repulsion
From everywhere, echoing chants
A requiem for their bitter lands
Just when you thought a sick society
Died in their final convulsions
Fantasies of omnipotence
Erased they'll become aware

Become aware
The fight goes on
Our fight goes on and on
The fight goes on
Demonic Future
The fight goes on
Our fight goes on and on
The fight goes on
Demonic Future, let it come

Just when you thought, utopia is here
Concord becomes just an illusion
From everywhere in legions, they storm
Nothingness shines in their eyes
Just when you thought, all you fought for
Brings justice and freedom eternal
Visions of a superior race shattered when they realize
Realize

The fight goes on
Our fight goes on and on
The fight goes on
Demonic Future
The fight goes on
Our fight goes on and on
The fight goes on
Demonic Future, let it come

Inevitable confrontations riots and resistance
Fatal thrones dark victories bring imminent demise
Like a phoenix from the ashes, shines another fragile system
We count the dead, we lick our wounds with new strength we arise
And all the light we could not see, was here for all eternity
We are the strike that pounds the prey
No one can take that away
And all the light we could not see, was here for all eternity
Was here for all eternity
We are the strike that pounds the prey
No one can take that away

The fight goes on
Our fight goes on and on
The fight goes on
Demonic Future
The fight goes on
Our fight goes on and on
The fight goes on

Demonic Future
Demonic Future
Demonic Future
Demonic Future, let it come
