Kreayshawn

I got ur girl on film and she wanna make a movie
She can be the star, and I can be her groupie
Or the director, let me show u how my camera works
I got u in my frame, let me see ur camera work
Girls on film and they wanna make a movie
She can be the star, and I can be her groupie
Or the director, let me show u how my camera works

Tell james cameron to put me on the silver screen
I'm avatar blue and need a pocket full of green
As a teen I would capture with a fish eye
On the block gassin where them bitches cook their fish fry
I'm flyer than the grease up off your skillet, so hand me any camera and gar
unteed I kill it
I film it and the feel it, because they got no other choice
I auto focus in, I see her gettin moist
No voice, I am rollin in that wide benz
I'm only fuckin witzu if you got a wide lense
Bitch ur fine, u can bring 5 friends
Or 95 blunts, a hundred racks a month
Places everybody, quiet on the set
I need u on ur mark honey, and yes ur gettin wet
My leading lady, u know u lookin extra hot
Take one roll, film for the money shot

In the face of amny man who ever try and doubt me

So holler at me if u lookin for a classic
