

# Chosen Family Tree

Kree Harrison

They say blood is thicker than water  
But even my father has let me down  
I've known love so much stronger  
Than even my mother can show me now

Something bout time  
Not taking for granted  
And lending a hand when I just needed one  
Something sweet about growing older  
And havin' that shoulder for leaning on

Take it from me  
I've finally found  
Who lifts me up my solid ground  
Up from the roots  
Out to the branches  
Of my chosen family tree

Take it from me  
I've finally found  
Who lifts me up my solid ground  
Up from the roots  
Out to the branches  
Of my chosen family tree  
Yea, this is my chosen family tree

Just plant a little seed and feed it, feed it  
Shine a little light when it needs it, needs it  
Watch a little love grow keep it, keep it  
Never let it go, never let it go  
Forever let it grow, never let it go  
...
