

## Drifting Away

Krept & Konan

This year it's all about the timing  
Got everybody talking 'bout the signing  
While I'm here thinking 'bout the pressure  
But I guess pressure makes diamonds  
Mum used to pray that I stopped banging  
MOBOs, now the woman won't stop bragging  
I know they hated that we're shining  
But we don't tuck our chains unless we fighting  
Thinking back on how it felt  
When you're always hearing no you start to doubt yourself  
It's even harder when there ain't nobody round to help  
Feeling lost, but that's when I really found myself  
On Karl's grave, I swear I never let that stop me  
If time is money, tell them watch me  
My mum's heart broke when they got Karl  
Imagine if they would have got me, imagine

They say you've been drifting away from me  
Drifting away from me  
They say you've been drifting away from me  
Drifting away from me, drifting away

Pound for pound, you out of your depth  
I just got mummy out of her debt  
The money only gonna make me worse  
The cheques looking like a date of birth  
It's mad how Kone lost it all and got it back up  
Still ended up ballin', you rappers playing catch up  
Don't stamp me those bottles boy, it might fuckin' stack up  
All you niggas lying, so I'ma murder Mufasa  
Bracka, bracka, I'ma murder a rapper  
For saying they're the best, what the fuck, are we dead?  
Top of the rap game last time I checked  
Now you can smell money on us, we've been counting them cents  
Used to pay for Nike, now Nike pay for us  
Yeah I can afford a maid now but I still ain't made enough  
Get a million and up, I probably still wouldn't rest  
How are you the best dog if you up against the vets?

They say you've been drifting away from me  
Drifting away from me  
They say you've been drifting away from me  
Drifting away from me, drifting away  
Drifting away, drifting away  
They say that you've been drifting away from me  
Drifting away from me  
They say you've been drifting away from me  
Drifting away from me, drifting away
