

# Wait Up For Me / Waiting

Krept & Konan

I've got her running up her phone bill  
Late night phone calls  
Thinking 'bout the last time  
We was waking up the neighbours and she  
Left the earring on the table  
I know you did that on purpose  
You've got work in the morning  
But I'll be there in a minute

So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me

(This type of love  
Don't come so easy  
This type of love  
Don't come so easy)

Don't fall asleep on me  
Wait for me to come so you can fall asleep on me  
I'll be down in a minute  
We can do it for an hour and I mean it  
Might take you for some late dinners  
Restaurants so plush you've gotta take pictures  
Might buy a girl Drake tickets  
Then fuck her to some Drake lyrics  
You know how it goes  
Thinks I've got chicks on the low  
You know a girl's favourite line?  
"Go and text your little hoes"  
Do it to her like no other  
I last long, I've got more thorough  
I know you need some company  
So just make sure you're waiting up for me

I've got her running up her phone bill  
Late night phone calls  
Thinking 'bout the last time  
We was waking up the neighbours and she  
Left the earring on the table  
I know you did that on purpose  
You've got work in the morning  
But I'll be there in a minute

So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me, don't sleep  
Don't sleep  
So you better wait up for me, don't sleep

Don't sleep  
So you better wait up for me

(This type of love  
Don't come so easy  
This type of love  
Don't come so easy)

I'm just tryna get you naked  
Small waist and I ain't gonna waste it  
It's getting late, you've been waiting up for ages  
She call me babe, girl you know that I hate pics  
Coming from the show, it's a late one  
Say I got next girls, can't name one  
Now you're talking 'bout groupies  
But what's the point of having fans if you ain't one?  
(Behave!)

Too busy tryna catch me out on the 'Gram  
Said I'll be a minute but she knows I never am  
And even though I lie to her, she knows where she stands  
When I get you out them damn covers  
It's winter time, she got an Ann Summers  
I know you want some company (girl)  
So just make sure you waiting up for me (girl)

I've got her running up her phone bill  
Late night phone calls

Don't sleep  
So you better wait up for me, don't sleep
