

No Control

Krewella

Is it my nature or a fever?
What's in the dark I'm diving deeper
My angel used to be the feature
And now she's disappearing in the ether

Pray for me my tongue's undone
I show my teeth, a loaded gun
So stay with me don't have to run
We'll rage beneath this hollow sun

Oh oh oh - show me your wild
Oh oh oh - like no one's around
I know you're savage underneath it all
I just want no control
Oh oh oh - I just want no control

I've been on the verge - am I to blame?
This endless urge - I can't contain
I'm on the verge - almost taste it
Edge of insane - you better (pray)

Pray for me my tongue's undone
I show my teeth, a loaded gun
So stay with me don't have to run
We'll lay beneath this hollow sun

Oh oh oh - show me your wild
Oh oh oh - like no one's around
I know you're savage underneath it all
I just want no control
Oh oh oh - I just want no control

I just want no
I just want no
I just want no
I just want no control
