

# Attention

Krezip

I got a busy mind and a lot on my hands  
So get out of my way  
And out of my hair  
Cause I'm going somewhere  
And I'm not in the mood for questions

And no I don't wanna talk  
I don't wanna get in too deep  
On whatever you think I am or do  
And I'm not in the mood for questions  
And if I was, I wouldn't let you in on the answers

Don't wanna lose my head  
I stand up straight  
I take a real deep breath  
I never asked for attention  
But now that I have your attention  
I will play my part  
I'll put on a face  
And with all my heart  
I never asked for attention  
But now that I have your attention  
I'll give you the best I can  
Tataada tatataada  
Tataada tatataada  
Tataada tatataada  
I'll give you the best I can

I will give you a smile  
I'll toss a really sweet wink  
But that's all you will get  
I am not letting you nearer than that  
No way I am not in the mood for questions  
And if I was I wouldn't let you in on the answers

Don't wanna lose my head  
I stand up straight  
I take a real deep breath  
I never asked for attention  
But now that I have your attention  
I will play my part  
I'll put on a face  
And with all my heart  
I never asked for attention  
But now that I have your attention  
I'll give you the best I can  
Tataada tatataada  
Tataada tatataada  
Tataada tatataada  
I'll give you the best I can

Tataada tatataada  
Tataada tatataada  
Tataada tatataada  
I'll give you the best I can

Tataada tatataada

Tataada tatataada  
Tataada tatataada  
I'll give you the best I can
