

Back In Love

Krezip

Take me back to those sweet years, baby
It's been so long
It's familiar and a little bit crazy
Falling back in love
I'm falling back in love

And it feels so good, so it can't be wrong
Ooh-oooh-oh, ooh-oooh-oh
What a thing to do, like when we were young
Ooh-oooh-oh
Falling back in love
Falling back in love
Falling back in love
Falling back in love

I guess we're both just a little bit older
Time moves on
But my head is still at ease on your shoulder
Right where I belong
I'm back where I belong

And it feels so good, so it can't be wrong
Ooh-oooh-oh, ooh-oooh-oh
What a thing to do, like when we were young
Ooh-oooh-oh
Falling back in love
Falling back in love
Falling back in love
Falling back in love

(Falling back in love) Falling back in love
(Falling back in love) Falling back in love
(Falling back in love) Falling back in love
(Falling back in love) Falling back in love
(Falling back in love) Falling back in love
(Falling back in love) Falling back in love
(Falling back in love) Falling back in love
(Falling back in love)

Take me back to those sweet years baby
(Falling back in love) Falling back in love
(Take me back to those sweet years baby)
Falling back in love (Falling back in love)
Take me back to those sweet years baby
(Falling back in love)
Take me back to those sweet years baby
(Falling back in love)
