

Been Here Before

Krezip

Oh baby
I can't help I'm back to dreaming about you for every night
Whenever we sing all night
'Cause lately I've been going back and forth, back and forth
What went wrong?
And why'd we ever let it go?

Take me back in your arms
Just hold me
I know what I want
Just hold me
Every mistake from the first time
Won't hit a second time

Oh, we have been here before
Just hold me
Oh, we have been here before
Just hold me

Oh baby, don't say a word
Let's talk about it later
'Cause my heart yearns, my heart yearns
Oh, my heart yearns

Take me back in your arms
Just hold me
I know what I want
Just hold me
Every mistake from the first time
Won't hit a second time

Oh, we have been here before
Just hold me
Oh, we have been here before
Just hold me

Take me back in your arms
Just hold me
I know what I want
Just hold me
Oh, we have been here before
Just hold me
Just hold me

Take me back in your arms
Just hold me
I know what I want
Just hold me
Every mistake from the first time
Won't hit a second time

Oh, we have been here before
Just hold me
Oh, we have been here before
Just hold me

Take me back in your arms

Just hold me
I know what I want
Just hold me
Oh, we have been here before
Just hold me
Just hold me
