

Better

Krezip

All of the leaves turned brown
And the birds all flew away
Everything's different now
Only you still feel the same

I know I've been hiding
Hiding away
Been trying to find the words to say
I know I've been quiet
Stuck in my ways
Been trying to find the words to say

That all of the things you do
All of the things you do
All of the things you do

Make me feel better
Cause I've been sad love
Make me feel better
Cause I've been sad love
Better better better

So many restless nights
Tossing and turning in the dark
You lay your hand in mine
You ease my weary heart

I know I've been hiding
Hiding away
Been trying to find the words to say
I know I've been quiet
Stuck in my ways
Been trying to find the words to say

That all of the things you do
All of the things you do
All of the things you do

Make me feel better
Cause I've been sad love
Make me feel better
When you tell me to hold on
I feel better
Cause I've been sad love
Make me feel better
Cause I've been sad love

Oh oh oh oh oh oh oh
Oh oh oh oh oh oh oh
Oh oh oh oh oh oh

I know I've been hiding
Hiding away
Been trying to find the words to say

That all of the things you do
All of the things you do

All of the things you do
All of the things you do

Make me feel better
Cause I've been sad love
Make me feel better
Better better better
