

Don't You Feel Afraid

Krezip

Don't you feel afraid of what they might say
Don't you feel it rise, feel the pressure rise
Don't you feel afraid, just be true to you
No don't you feel afraid there's no need to

It's spelled out if you can't see
Where you have to take it from
Cry out if you need to
You've got to give 'em what you've got
'Cause you've got enough

Don't you feel afraid if you're losing time
Don't you feel it hides, if you try you'll find
Don't you feel afraid just enjoy it all
No don't you feel afraid there's no need to

It's spelled out if you can't see
Where you have to take it from
Cry out if you need to
You've got to give 'em what you've got
'Cause you've got enough

Crying out for
Letting yourself down
Still feels like nothing's here
Give it time
Just let it rest
And it will all slide over you

Here I sit down and wonder
How can I know

It's spelled out if you can't see
Where you have to take it from
Cry out if you need to
You've got to give 'em what you've got
'Cause you've got enough
