

I Agree

Krezip

Big eyes that stared at nothing in the dark
But what they're seeing, I don't know
Can't feel it, it's too far away
Can't see it, much too deep for me

I ask a lot I know
But you heard a lot I saw
The things that made you scream
But you don't know where it's from

Dreaming, 'cause that's the way to escape
But where to, you don't know
Can't feel it, it's too far away
Can't see it, much too deep for me

I ask a lot I know
But you heard a lot I saw
The things that made you scream
But you don't know where it's from

No more lies I said
I wanna hear it all
Like what did it do to you
But all she said was "I agree, I agree with you"

I ask a lot I know
But you heard a lot I saw
The things that made you scream
But you don't know where it's from
