

# Make You Mine

Krezip

Maybe I've been acting crazy  
Baby I've been spinning lately  
Can't believe how far we made it  
How you make me

How you make me shine  
In these crazy times  
And I still feel fine  
I still feel fine

All the love we've tasted  
All the years I've wasted  
Now's the time  
I will make you mine

I will make you mine  
I will make you mine oh love  
You and I until the end of time  
I will make you mine

You are like a four-leaf clover  
And one day when this life is over  
I'd do it all  
I'd do it all again

Cause your arms are strong  
Keep me safe from harm  
And your heart is calm  
Your heart is calm

I will make you mine  
I will make you mine oh love  
I will make you mine  
I will make you mine oh love  
I will make you mine  
I will make you mine oh love  
You and I until the end of time

I will make you mine  
I will make you mine oh love  
I will make you mine  
I will make you mine oh love  
I will make you mine  
I will make you mine oh love  
You and I until the end of time

I will make you mine
