

# Protection

Krezip

The things you're doing are illegal in your own country  
So you travel around the world looking for your heaven  
Little girls are waiting there forced to be abused by you, yeah

It was their mother she made them scream  
Even though they were all she had then  
But she needed the money if she wanted to survive  
So she had to be selfish she gave her kids away  
Gave her kids away

And as she's sitting there she's playing with her girlfriends  
She's playing with her dolls and tries to catch a butterfly, ye  
ah

But when the monster comes in she has to put on make-up again

It was their mother she made them scream  
Even though they were all she had then  
But she needed the money if she wanted to survive  
So she had to be selfish she gave her kids away  
Gave her kids away

And as you're lying there the sheets you lie on are full of blo  
od

The cross you pray on but where's your god  
But there was no protection  
No there was no protection  
There was no protection, no, yeah

It was their mother she made them scream  
Even though they were all she had then  
But she needed the money if she wanted to survive  
So she had to be selfish she gave her kids away  
Gave her kids away
