

# Seventeen

Krezip

Here's to new beginnings  
I need a little warmth so  
I'm singing  
Sweet songs  
Our favorite songs

Let's keep on drinking  
Cause I'm scared and I'm tired of thinking  
What was lost  
Or what will be lost

When we were seventeen  
Everything was always easy like a dream  
When we were seventeen  
Everything we had was all we'd need  
We shared our heartbeats  
Living in the backseat  
Easy and green  
Oh, when we were seventeen  
Oh, when we were seventeen  
Oh, when we were seventeen

Now we're alone together  
Still no one knows me better  
Carrying on  
Oh, we're carrying on

When we were seventeen  
Everything was always easy like a dream  
When we were seventeen  
Everything we had was all we'd need  
We shared our heartbeats  
Living in the backseat  
Easy and green  
Oh, when we were seventeen  
Oh, when we were seventeen  
Oh, when we were seventeen  
Oh, when we were seventeen  
Oh, when we were seventeen  
Oh, when we were seventeen

Everything was always easy like a dream

When we were seventeen  
Everything was always easy like a dream  
When we were seventeen  
Everything we had was all we'd need  
We shared our heartbeats  
Living in the backseat  
Easy and green  
Oh, when we were seventeen  
Oh, when we were seventeen  
Oh, when we were seventeen
