

# Sweet High

Krezip

You are like a sweet high  
You are like a sunny day  
You are like a bright light  
You'll never see me walk away  
Baby you're a safe house  
Keep me out of harm's way  
You are like a bright light  
You'll never see me walk away, yeah-eah

You're in my blood  
Running through my veins  
I don't think twice  
I'd do it all again  
You're in my blood  
I know where to find love  
I know where to find love  
I know where to find love

Baby, tell me what you want  
Share with me your hopes and dreams  
Honest as the day is long  
Do you see the things that I see?  
Like all the places we could go  
What it will be like when we're old

You're in my blood  
Running through my veins  
I don't think twice  
I'd do it all again  
You're in my blood  
I know where to find love  
I know where to find love  
I know where to find love

Love, love, love, love  
Love, love, love, love

You're in my blood  
Running through my veins  
I don't think twice  
I'd do it all again  
You're in my blood  
I know where to find love  
I know where to find love  
I know where to find love

Love, love, love  
I know where to find love  
Love, love, love  
I know where to find love
