

There It Goes

Krezip

Two years later same conclusion
This is where it ends
This is where you have to choose so
Choose for something else
Be true to what you have been thinking
Every day again

Cause you can't pretend to

There it goes
You try to hold it tight
There it goes
Afraid of what you'll find and still a lot to hide
There it goes

I know you're scared of getting hurt
And being all alone
But you know better than to go with
Something that is gone
Stay true to what you have been thinking
Every day again

Cause you can't pretend to

There it goes
You try to hold it tight
There it goes
Afraid of what you'll find and still a lot to hide
There it goes

I walked around the house for hours
Tryin' to think about
What it means for you to let it, let it go again

But I've been there done that
This is how it is
I have felt it seen it
This is what it is

There it goes
You try to hold it tight
There it goes
Afraid of what you'll find and still a lot to hide
There it goes
