

With You

Krezip

Walk into my lonely life
Straight into my dark days
Light me with your sweet fires
Get me through this bitter stay

Oh, I just need somebody
I just need somebody
I just need somebody like you

Show me love in the ways of the world
Take me somewhere dancing
Hold me close and I'll never get hurt
Oh, with you
I want it all with you
Oh, with you
I want it all with you
Oh, with you

Sitting all the lonely days out
We're no longer needed here
And now I know what love's about
And there's no single thing to feel

Oh, I just need somebody
I just need somebody
I just need somebody like you

Show me love in the ways of the world
Take me somewhere dancing
Hold me close and I'll never get hurt
Oh, with you
I want it all with you
Oh, with you
I want it all with you
Oh, with you
I want it all with you

I want it all with you
Oh, with you

Show me love in the ways of the world
Take me somewhere dancing
Hold me close and I'll never get hurt
Oh, with you
I want it all with you (Walk into to my lonely life)
Oh, with you (Straight into the dark days)
I want it all with you (Light me with your sweet fires)
Oh, with you (Get me through this bitter stay)

Oh, I just need somebody
I just need somebody
Oh, I just need somebody like you
