

# You Can Say

Krezip

Come on let yourself slide  
Come on take it tonight  
You made it real for now but  
Make your day if I can  
I give it all 'cause I am  
You made it real

Yeah, you can say  
You can say  
Just say what you want  
'Cause we can't pretend no more  
There we go  
I can hide my self away inside my face

Say now let it begin  
Take it all if I win  
You made it real for now but  
Time to justify my  
Time to rectify my  
You made it real

Yeah, you can say  
You can say  
Just say what you want  
'Cause we can't pretend no more  
There we go  
I can hide myself away inside my face...

So let it come  
And make me sacrifice some more  
I know you're watching me real close  
'Cause if come pretty far  
I try to run but  
You kicked me back just where it could  
Got sick of all that comes before  
Though I come quit far

Come on let yourself slide  
Come on make it feel right  
You made it real  
You can say  
You can say  
Just say what you want  
'Cause we can't pretend no more  
There we go  
I can hide myself away just inside my face  
You can say  
Just say what you want  
'Cause we can't pretend no more  
There we go  
I can hide myself away inside my face  
Inside my  
Inside my  
I can hide myself away inside my face
